# TECHNICAL DETAILS

## SIZE

820 x 440 x 740 mm  
33 x 20 x 29 in

## LAYER

50, 100 microns  
0.002 , 0.004 in

## BUILDING VOLUME

470 x 240 x 340 mm  
18.5 x 9.4 x 13.4 in

## XY RESOLUTION

137 micron

## WEIGHT

66 kg (145 lbs)

## MATRIX 4K

3840 x 2160 Pixels

# SOFTWARE (Included)

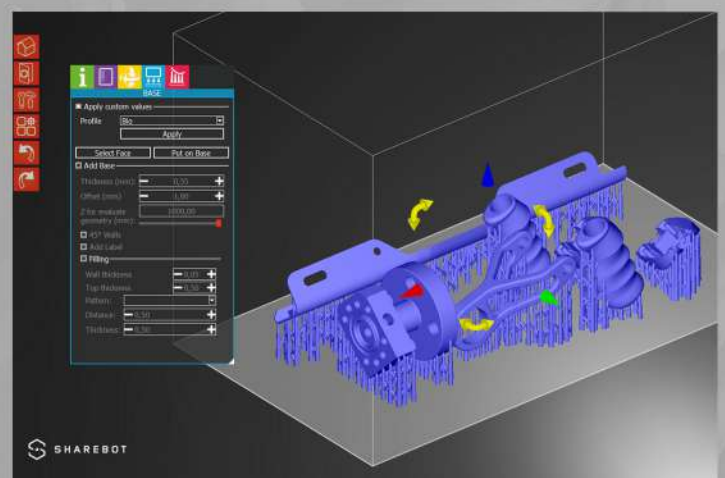

## PYRAMIS

Pyramis is a simple and intuitive slicing software for the management of the entire 3D printing process with resin technology.

The workflow, simplified by the use of wizard, is as follows:

- Import
- Model's analysis and adjustment
- Positioning on printing plate
- Creation of supports with the aid of different options and strategies
- Preparation of printing file (slicing)

Available materials' profiles are preloaded and ready for use.
